HOW FAR WOULD YOU PEDAL FOR A NEW ENERGY FUTURE?

How about 300 miles from the Big Apple to the Nation's Capitol, where you can take your message to Washington D.C.

Join Climate Ride 2009, the first multi-day bicycle ride where your pedal strokes help raise money and awareness for innovative and ground-breaking climate-focused organizations and renewable energy legislation! This transformative event is ideal for anyone who believes that America can take the lead in a green economy.

THE RIDE

From September 26th–30th, Climate Riders will cycle 300 miles in five days from New York City to Washington D.C., following scenic country roads and finishing near the United States Capitol, where they will make a statement about our country's need for renewable energy and climate change action.

THE EXPERTS

Along the way, expert speakers will educate and inspire Climate Riders and local communities about the science, the policies and the solutions to global warming. Our riders will learn how our government, businesses, and all Americans will benefit from a cleaner, healthier climate. This is a unique event—a fundraiser and climate conference on wheels, and an opportunity to meet people who are engaged in making a difference.

JOIN US

Each amazing Climate Rider raises \$2,400 to join Climate Ride. Proceeds from the ride benefit Focus the Nation, Rails-to-Trails Conservancy, and Clean Air - Cool Planet -- three organizations that lead the way in expanding climate change education, encouraging renewable energy policies, and promoting solutions to global warming. The five-day ride includes expert support, restful camping, good food, and great people. All you have to do is bike; we take care of the rest.

REGISTER AT WWW.CLIMATERIDE.ORG. YOU CAN MAKE A DIFFERENCE.
